mikekerei@gmail.com

Hi, I'm Michael, an organized & hard-working individual, looking to join a team or community of product developers, that build, design and develop innovative products and solutions while making a positive impact in society. I'm seeking to further develop my knowledge and experience of software development, with a team of like-minded software and service developers.

EXPERIENCE

2017 – PRESENT

WORDPRESS WEBSITE DESIGNER, FREELANCE

- Developed websites that are fully responsive and scalable, to meet the clients needs
- Worked with clients to create detailed requirements and specifications
- Managed project deadlines and milestones
- Provided training and support to clients on how to use their websites

2015 – 2016

WEB DEVELOPER INTERN, DATASPOT TECHNOLOGIES LIMITED

- Developed highly scalable and responsive websites for businesses in a bid to increase their operational efficiency
- Worked with a team to develop business solutions using Microsoft Azure

EDUCATION

2013-2017

BSC. BACHELOR OF COMPUTER TECHNOLOGY, JOMO KENYATTA UNIVERSITY OF AGRICULTURE AND TECHNOLOGY

- Completed a four-year Bachelor of Computer Technology degree (Second Upper Honors)
- Gathered experience in the field of computer technology
- Learned about the latest computer technology advancements
- Assisted in the development of new computer technology products

2022 - PRESENT

ALX SOFTWARE ENGINEERING PROGRAMME, ALX AND HOLBERTON

- Experience with DevOps tools; Git and GitHub
- Good coding practices and software development standards in developing usable and scalable software solutions for businesses.

SKILLS
